

REMARKS

A *Notice Regarding Drawings* was mailed on February 23, 2006, stating that Replacement drawings were required. In response, Replacement drawing sheets are enclosed as Attachment A. Unfortunately, the drawings figures had to be renumbered to meet the requirements of 37 CFR 1.84. Therefore, the specification must be amended to match the replacement figures. The Applicant requests that the Replacement drawings and specification amendments be entered, in order to advance the claims advanced to issue.

Date: 3/2/2006

Respectfully submitted,

Gerald Maliszewski
